The Kelso 2012 Water System Comprehensive Plan (WSP) provides the City of Kelso (City) guidance for the 6- and 20-year planning periods to address long-term water supply, storage, transmission, and treatment needs for Kelso's service area. The WSP is a tool for the City to make decisions and implement programs that allow for the community's future water needs. The document has been prepared to meet the requirements of the Washington State Department of Health (DOH) as established in WAC 246-290.
